Attached is a copy of the memorandum Mr. Bannerman sent 10 July to the Director telling of developments thus far with our film on National Intelligence Production.

I mentioned to Mr. Bannerman your desire for something to support a task order to Mr.

STAT He suggested I send you this and asked that you go ahead on the task order. No final arrangement to finance the film has yet been made but this will obviously be worked out in due course.

MEMORANDUM FOR: Director of Central Intelligence

SUBJECT : Proposed Film on National Intelligence Production.

1. This memorandum is for your information. It reports actions taken and in progress on your request for the development of a motion picture on National Intelligence Production.

2. On 9 June 1967 we contacted a free-lance writer, [] who appears well suited for this project having had extensive experience as a motion picture script writer and producer, primarily in the field of industrial films. In addition, he worked under a part-time contract with the Office of Training's Film Unit some years ago and has a general familiarity with the Agency. With ONE's concurrence, he has been retained to prepare the script for our film and is available if needed to assist in its production.

3. [] has had several meetings with Sherman Kent and other members of ONE and in line with these discussions expects to present to them a "treatment" of the film--blocking out its proposed coverage, content, and sequence--on 11 July. His "treatment", we understand, envisions a 30-35 minute color film consisting primarily of new footage to be "shot" here at the headquarters building and to cost a total of roughly \$30,000 - \$35,000. If the "treatment" is acceptable, [] thinks he can complete a shooting script before the end of August in which case we believe the film can be completed by December.

STAT

4. In discussions with ONE representatives, we have agreed that they should take the lead in overseeing the development of the script for the film and we--through OTR's Film Unit--will manage its production.

5. I will keep you advised of further developments.
